

Expanding initial credit
pull options with:

SoftQual Technology

USA Mortgage can pull your buyer's credit to pre-qualify them without a "hard pull."

- No points deducted from credit score
- No bureaus know credit is being pulled-aka trigger alerts
- Borrowers can see their actual credit score before the hard tri-merge pull needed for a mortgage
- Allows lender to get an idea how they can help borrower with credit profile without hindering credit
- Stops other competitors from seeing credit pull so they will not be badgered by 100s of phone calls and emails through the process

This technology will make you a cut above the rest with your clients!
